### **DIXIE ART COLONY FOUNDATION**

#### **Lunch & Learn: All About Art Glass**

**Wetumpka, Alabama**—The first in our annual series of Lunch & Learn programs “All About Art Glass” will be held on September 8, 2016 at Trinity Episcopal Church in Wetumpka, Alabama. The hour-long program will feature a video about Alabama glass artist Cal Breed. The documentary was produced by Alabama Public Television as part of the Alabama Craft series. Cal and his wife Christy are owners of Obix Hot Glass located on a 26-acre parcel of land bordering Little River Canyon National Preserve near Fort Payne, Alabama. Cal is a graduate of Auburn University.

Following the video portion of the program, there will be a discussion about art glass and an opportunity to view examples of art glass produced by Obix Hot Glass, Louis Comfort Tiffany, and Steuben.

This event is free of charge and is open to all interested parties. Attendees are asked to bring a box or sack lunch. Beverages and dessert will be provided. Trinity Episcopal Church is located directly across the street from Winn Dixie and McDonalds at 5375 US Highway 231 in Wetumpka, Alabama.
